

Signing Up

Getting onto SJAG Events is quick and easy through the user self-enrol page.

1. Go to the use self-enrol page

On a mobile or computer, go to events.stjohn.gg/enrol, read the disclaimer on the first page and then click 'I Understand'.

2. Fill out your user details

Enter your name and email address, then set a password. Make sure your password is secure and memorable as you will need it to access your account once confirmed. The use of complex, auto-generated passwords is recommended.

The security of SJAG Events is heavily dependent on the security of the account password. **Do not use simple, short, common passwords, or passwords you have already used on another site.** Where possible, make use of password managers that can generate complex passwords and save them for you.

3. Select your roles

From the list, check the box next to the roles you hold within St. John.

CADETS: along with their main role (e.g. Cadet First Aider), Cadets should also assign themselves the base Cadet role. This can be used for non-operational events that require Cadets, as well as helping the system recognise the user as a Cadet.

4. Submit & confirm your email

Complete the hCAPTCHA test at the bottom of the page, then submit your details. You will shortly receive an email from the system to the address on your application - make sure to check your spam folder. Click on the link or copy it into your browser to confirm your email address. If you have not received a confirmation email, please reach out to your system administrator.

5. Wait for your application to be confirmed

And that's it! Your application has been received and will shortly be reviewed by a system administrator. If your application is confirmed, you will receive an email with instructions on how to login using the credentials you set earlier.
