Editing a reserve duty is similar to editing a requirement based duty booking.

Alter the values in the input boxes to change your start, end time, or role.

To approve a duty after an event-organiser modifies it, check the 'User has accepted booking' box.

Click 'Amend booking' to save your changes.

Alternatively, click 'Cancel booking' to cancel your duty.

Note: if the event organiser has already accepted your booking and you amend it, re-approval will be required.
